

Caregivers **SH**aring **M**eaningful **Pr**IOrities for **Pat**ie**N**tS (CHAMPIONS)

What is the CHAMPIONS Study?

- The study engages adult caregivers to learn what types of treatments and outcomes are most important to you in making health care decisions for the person in your care.

Who can join the study?

An adult who:

1. Is the primary caregiver (or surrogate) of a person diagnosed with Alzheimer's Disease or a Related Dementia (ADRD)?
2. Has legal authority over health care decisions for this person.

How will this help persons like you?

- You will help others just like you make the best treatment choices for the person in their care.

What you will be asked to do if you join the study?

- Complete a brief pre-screening call
- AND
- Complete a survey online or in a private office or library that will take 45 minutes.

Our promise to you:

- We will always respect your privacy.
- We will never use your name in any papers or flyers we share.
- We will provide you with feedback from the study
- You will get a \$20 gift card for being in this study
