

THE LIFESPAN COMPLIANCE SOLUTION

Powered By
CEBA

Risk Management

CEBA Comply helps you discover risks, and then guides you through the process of creating a risk remediation plan.

HIPAA Compliance

CEBA Survey allows you to self-attest through customizable forms and validate through our formal third party assessment process.

Policy Management

Upload existing policies or activate CEBA's interactive policy bank, which guides you through the process of creating proper documentation.

BA Management

Connect with your Business Associates via CEBA, maintain BA agreements, and review a snapshot of their HIPAA compliance

Training

CEBA Learn offers comprehensive training packages for your workforce. You can also create your own courses on any topic desired.

Vendor Management

CEBA Vendor helps you to better understand and manage the risk presented by your relationships with third-parties.

CEBA COMPLY

Risk Management & Compliance for Healthcare

CEBA Comply helps you to assess the current risk to your business. It is an easy to use, yet comprehensive tool created for the assessment, documentation and management of overall risk as well as compliance with the HIPAA Security, Privacy and Breach Notification Rules.

CEBA Comply organizes all of your compliance data into a dashboard, allowing you to quickly understand and communicate your current compliance status, areas for improvement and remediation progress at a glance.

The CEBA Executive Health Score summarizes the most important performance criteria that aligns to the Office of Civil Rights and NIST protocols to ensure you are compliant with critical security and privacy regulatory requirements.

Policy Management for Healthcare

CEBA Comply also includes a robust policy management system, which allows for approvals, revisions, review assignment, and a complete audit trail for each policy document. You can use your own policy documents, or choose from over 500 policy templates which are included.

The CEBA Risk Management Process

1

Attest

CEBA Survey empowers you to self-attest via tailor-made forms, allowing you to demonstrate compliance via our third-party assessment process.

2

Assess/Remediate

CEBA Comply includes risk assessments designed to assist in identifying areas that are out of compliance, creating remediation plans that include workforce assignments and progress tracking.

3

Track

CEBA provides a real-time overview and scoring of your progress, making it easy to understand where you are and where you need to go

4

Train

CEBA Learn lets you create your own custom training courses, or you can add premium course content such as Basic HIPAA Training or Phishing 101.

5

Repeat

CEBA makes the entire Risk Management process interactive and allows you to build on your compliance efforts with real-time feedback and support

CEBA LEARN

Workforce Training for Healthcare

CEBA Learn is a complete learning management system that can be used as a stand-alone service, or can be seamlessly integrated with CEBA Comply to provide you everything you need to train your workforce and document compliance and certifications.

CEBA Learn lets you create your own custom training courses on any topic desired, or you can select from several included training courses, such as HIPAA compliance and Phishing.

CEBA SURVEY

Attestation Made Simple

CEBA Survey is designed to reduce the complexity of security and privacy compliance attestation. Organizations with multiple facilities and third party vendors can save 40-50% annually using this unique solution.

Incorporating third party risk assessment through CEBA Comply, provides the added integrity and accountability to properly protect your business and demonstrate due diligence.

Both CEBA Learn and CEBA Survey can also be dynamically merged into CEBA Comply, making your CEBA Executive Health Score an even more accurate assessment of your overall risk.
